Community Diagnostic Centre

Lindum Street, Scunthorpe
DN15 6QU

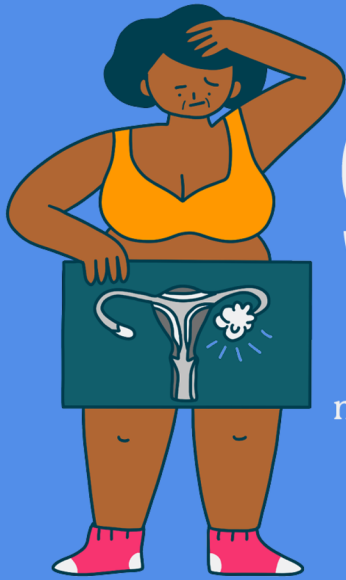

Located on Lindum Street in Scunthorpe town centre, the CDC is easily accessible by car and public transport.

Appointments are available from 8am to 8pm, seven days a week and for cardio-respiratory testing appointments are available between 8am and 6pm, Monday to Friday.

Offering the following services:

Cardio-respiratory tests, Phlebotomy (blood tests), X Ray, on-obstetric ultrasound.

Soon it will also be able to offer CT and MRI scans.

90%

of women do not know the four main symptoms of ovarian cancer.

ovarian.org.uk

OVARIAN CANCER SYMPTOMS

- Tummy pain
- Bloating
- Feeling full
- Needing to pee more

Ovarian cancer symptoms can also include indigestion, back pain, changes in bowel habits, post-menopausal vaginal bleeding, and extreme tiredness.

ovarian.org.uk

OVARIAN CANCER AWARENESS

- Ovarian cancer is a type of cancer that affects the ovaries, which are part of the female reproductive system.
- Every 2 hours another woman dies from ovarian cancer. It kills more women in the UK than womb, cervical, vulval, and vaginal cancers combined.
- Ovarian cancer most commonly affects women over the age of 50, but ovarian cancer can affect women of all ages.
- One in four women mistakenly think their smear test will detect the disease.
- Symptoms are often mistaken for less serious conditions like IBS. Further information can be found at ovarian.org.uk.
